BLENHEIM PYE homes

Blenheim Palace & Pye Work Experience Program
Support Functions Experience

Location: The Estate Office, Blenheim Palace, Woodstock, OX20 1PP

Summary:

Monday & Tuesday - Innovation

On the innovation team, you'll get hands-on experience solving real business problems and exploring new ideas. You'll work alongside the team to help identify opportunities to improve how Blenheim operates, from everyday processes to bigger-picture initiatives.

This could include brainstorming solutions, looking at information to spot patterns, and helping shape ideas into simple, well-structured business cases. You'll also get insight into how decisions are made and how innovation works in a real organisation.

Wednesday & Thursday- Marketing

During these days of work experience in the marketing department, you will get the chance to explore several key aspects of digital marketing. You'll learn what makes websites effective and how to analyse competitors' strategies, understand what makes a social media post engaging, including tips on using design tools and get a brief introduction to Paid Social advertising. Finally, you'll discover how to create an engaging newsletter, giving you hands-on insight into how marketing campaigns are planned and executed.

Friday- Tours and Skills Afternoon

In the morning, students will have the opportunity to explore more of Blenheim with a Palace Tour and Park Farm Tour. In the afternoon, we'll focus on developing practical skills for the future through activities such as CV writing, mock interviews and employability skills, helping students build their confidence and prepare for the world of work.

Our Culture

At Blenheim & Pye, we are passionate about providing an environment for everyone to develop their skills, try new ways of learning, and encouraging their talents to flourish. Our Blenheim & Pye Behaviours are shared by all and are an important aspect of joining the Blenheim & Pye Team.
